Android vs apple meme funny

Coke or Pepsi. Marvel or DC. Ketchup or mustard. Each of these debates evokes passionate feelings and even more entertaining reactions. The latest - and perhaps most heated - brand controversy to enter the public consciousness is Samsung versus Apple, humorously captured via Android versus iPhone memes. Android puns poke fun at their pixelated camera fights and bootleg emojis, while Apple jokes include memes about autocorrect, cracked screens, and its status as a luxury brand. For every phone user, these iPhone vs Android jokes provide a cheerful and accessible form of content. If, of course, you're still running around with Nokia, in which case your next and last call should be a 911. Photo: Ryanne Lai Here at android authority we are about much more than just smartphones, tablets and other weird gadgets. Behind the Android scene is the whole culture; one that people tend to be very loud about. And if we can't express our love for Android personally, we'll do it online. There are lots of memes and other fun content out there. Our goal is to make our favorites and put them in this post for your viewing pleasure. Just keep in mind these are not intended to attack anyone or take sides, they are just images that should bring a smile or two to your face. Let's have some fun! It happens to the best of us. Then you pull out the phone a second time and... don't forget to check the time again. Do we have any fans from Dragon Ball? Then there are the Star Trek fans! Aaaaaand of course, Star Wars. This is popular. He never gets old... if you are still not using your Blackberry. These pictures got very popular for a while. It's the ultimate battle: Android vs iOS. And it's not going to end anytime soon. In fact, most Android memes are somehow related to Apple, too. Leonardo DiCaprio agrees. But it's not just a question of price, is it? It's all about what you can do with your phone, and Android users certainly like to brag that Android has more features and uses them much earlier than Apple smartphone owners. It really doesn't apply anymore, but we all remember the days of Flash. We also like to make fun of any problems apple devices encounter. And we'll never forget them. Do you remember #bendgate? When Apple finally made the iPhone bigger... by just prolonging it. It was after swearing for years that their 4-inch screens were perfect. Now they have huge screens iPhone 6+. Apple Maps. I'm sure you've impressed us! Then there are the others who defended BlackBerry OS (the company now makes Android phones) and Windows Phone (miserably failed). But we try to be fair and recognize problems in the Android community. After all, it's all about fun. This isn't really a meme, but definitely the hell out of us for years. All this talk of fragmentation has gone mad on me! Do we have to say anything about the next one? Oh, and there are great videos too! Remember those Sh*t Apple fanatics say videos? I keep looking at them on gloomy days just to cheer it up. Prohibited ads have been Genius! What is your favorite Android-related meme? Do you have any funny Android-related memes or themes? They are the reason to provoke more different debates with other brands. These memes are evergreen because they are the most popular brand disputes ever heard and insult each other in a hilarious way, as is often a great way to soften but at the same time warm up the argument. This meme war will continue forever and continue to make the world laugh. The amount of laughter generated by people with this meme is nothing compared to other memes. This meme was created by a kind of revolution in the world of memes. Android and iPhone users like to throw some sarcastic notes at each other through these memes. They love each other's humor with the help of these memes. The way these memes create miracles is not like the others. They make so many people laugh hard and keep doing it until today. The power of memes is enormous. The impact it has on the world is also enormous. Almost the whole world is under its spell and can also be a source of information. Most of the time, the first thing that pop on social media is always a meme. That's the impact memes have created on us. They've become part of your life in such a short period of time that we can't live without them now. Now it's like we can't function without them. The content in the memes is minimal and so accurate that they will connect with us in no time. Relatable content that is very minimal makes it easier for us to communicate. Memes are now a huge part of our lives, especially when it comes to memes that are related to brand disputes like Android and Apple. Memes that include all the major brand disputes are the juiciest ones. They sting, but they're hilarious at the same time. They give out juicy content in a very funny way. If you want the ultimate wild comebacks for someone, good memes are exactly what you need. They are a great source of entertainment and are also easily accessible. Sometimes they are also used for trolling, but most of the time they are just made only for pure fun and humor. Final words Many times Android users are the ones that are trolled, and Apple is considered more excellent brand almost everywhere. Therefore, to express their love, Android users express it through memes. Since memes are super popular, many other people with the same ideas share with others and similar content is further created. To put up a good fight, iPhone users also post memes to declare their superiority and again similar content is shared and further created. This cycle goes on and on, and more memes are generated in the process that continues this war between two types of users. Recommended image credit
